

# **Updates to CIOS (Course/Instructor Opinion Survey)**

Donna Llewellyn, Ph.D

Tris Utschig, Ph.D

CETL

# The Context

- CIOS is currently in a home-grown solution programmed in Cold Fusion by OIT
- Certain logistical aspects of CIOS are in need of updating (survey windows, etc.)
- The CIOS questions are in need of updating
- We would like to be able to run a parallel TAOS (TA Opinion Survey)

# What we have done

- Completed design of new CIOS questions
  - CIOS Task Force
  - Several pilot efforts
- Piloted a TAOS in SurveyMonkey
- Studied options to upgrade capabilities:
  - Update the current system (OIT),
  - Update a Sakai tool (outsource the programming),
  - Use a vendor to provide the survey instrument

# The Plan

- We will use CourseResponse, a program offered by Digital Measures
- This will allow us to
  - Use the new survey instrument
  - Have flexible survey windows
  - Have a concurrent TA survey
- We are doing a final pilot this term, we will move over in SUMMER 2011 (subject to resolving a couple of issues)

# What we need

- Your help in getting the word out
- We are willing to visit your units to share information about the new survey and the new process
- We are here to answer questions
